## Learning and Information Services

## A Liaison Guide for Academic Staff

### Welcome to Learning and Information Services

We can support your teaching and research needs by providing a wide range of services and facilities. In addition to our “front of house” service areas (such as lending and enquiries) there is a Faculty Liaison Team specifically here to help you.

## How Can We Help?

We are your contacts for any information and resource-related issues:

We will:

- Advise on your library book fund and how to order books, journals and non-print materials
- Provide Information Fluency training and resources for students and staff on how to use information sources: library catalogue, databases, e-resources, etc. We can provide this support through classroom-based training, electronic tutorials or quizzes, or by one-to-one support
- Attend regular Course Committees, Programme Boards and Faculty Boards to keep up-to-date with Faculty issues and keep you up-to-date with any LIS developments, new resources etc
- Produce Information Guides and Leaflets on our resources and services
- Discuss and advise on the resourcing of new courses in relation to Learning and Information Services
- Place heavily demanded items into the short loan collection (books and photocopies) at your request
- Create interactive electronic reading lists that students can access from your Blackboard modules. We will check your reading lists to give you an up-to-date picture of the number of copies in stock at each site library and also to highlight out-of-print titles so that your students can access the texts that you are recommending
